DEVILS KITCHEN TRAIL

Devil's Kitchen Trail is a natural surface loop trail that takes hikers through managed dry chert woodland and glade communities before entering the Devil's Kitchen Sinkhole. The sinkhole contains a geologic feature known as Devil's Kitchen, which is a small cave shelter. After descending off the glade and through a cherty woodland, the ground has large areas of rock before coming to an opening to the right of the trail.

Further down and around these rocks, there is an entrance to the cave shelter. Looking back into the opening, hikers will be treated to a view of the sky through the chimney at the rear of this cave. The trail continues past the Devil's Kitchen feature to a steep concave bluff wall known as Devil's Promenade. To reach the Devil's Promenade, hikers must step across a small gap in the bedrock surface of the trail.

After Devil's Promenade, the trail climbs out of the sinkhole and crosses a county road, Post Office Road. Once across the road, the trail continues through an open woodland to Post Office Day-use Area, where it crosses State Road D. Follow the large footprints painted on the road surface to cross the road safely. Here, an overlook has a nice view of the castle across the spring chasm and an interpretive panel on the historic town Hahatonka.

The trail joins Spring, Colosseum and Dell Rim trails at this point, so watch for the brown blazes to follow Devil's Kitchen Trail back to the top of the natural bridge. From here, hikers cross State Road D into Ha Ha Tonka Oak Woodland Natural Area parking lot. The trail was constructed in 1981 by park staff and volunteers to highlight the interesting geologic formations in Devil's Kitchen Sinkhole.

Distance: 1.3 Miles

Uses:

Hiking 

Blazes:

Brown 

Class: Loop

Surface Type: Boardwalk, Natural

Trail Rating: Rugged

Estimated Hiking Time: 1 Hour, 20 Minutes

Trailhead & GPS Location:

37.97359, -92.76233

Elevation profile is not available

You may experience:

- 2) Natural Surface-dirt/mud/gravel, shifting rock, slippery surface, etc.
- 3) Rocks, roots and/or downed vegetation on trail
- 5) Physically challenging obstacles
- 6) Wood or stone steps
- 7) Steep grades and inclines more than 10%
- 8) Bluffs or drop-offs next to trail
- 9) Bridges and/or structural crossings
- 12) Road/highway crossing

This trail or a portion of this trail travels through: Ha Ha Tonka Karst Natural Area, Ha Ha Tonka Oak Woodland Natural Area

- RED
- ORANGE
- YELLOW
- GREEN
- BLUE
- BROWN
- WHITE CONNECTOR
- SHARED TREAD

- NATURAL
- GRAVEL
- PAVED
- WATER
- BOARDWALK

TRAIL BLAZE COLORS & SURFACE TYPES

The maps on this website indicate the blaze colors for each trail. If more than one trail shares tread, that portion of the trail is identified by more than one color. The surface type of a trail is indicated on the maps generated by this website by a pattern overlapping the blaze color of the trail.

TRAIL TYPE – Loop, Multi-loop, One Way, System or Multi-section

A **loop** trail is one that will return you to the trailhead. **Multi-loop** trails offer two or more separate loops, ex. a trail having a north and south loop. A **one-way** trail takes you from the trailhead to the farthest point on the trail and you will have to retrace your steps to return to the trailhead. If you plan to return to your starting point on a one-way trail, you will have to double the distance to calculate your estimated mileage and/or hiking time.

A **trail system** is a series of interconnected trails that allow you to choose your own route.

A **Multi-section** trail offers two or more separate sections, ex. Katy Trail State Park, and distances are shown both for the entire trail and the sections.

- 1 Slippery conditions and/or downed vegetation
- 2 Natural surface: dirt, mud, gravel, shifting rocks, slippery surface, etc.
- 3 Rocks, roots and/or downed vegetation on trail
- 4 Low-hanging vegetation
- 5 Physically challenging obstacles
- 6 Wood or stone steps
- 7 Steep grades and inclines over 10%
- 8 Bluffs or drop-offs next to trail
- 9 Bridges and/or structural crossings
- 10 Water/stream crossings without bridges
- 11 Occasional water over trail
- 12 Road/Highway crossing
- 13 Emergency response signs
- 14 Narrow passages
- 15 Raised or protruding obstacles
- 16 Electric fence crossings
- 17 Bison/elk
- 18 Rapidly changing weather conditions
- 19 Motorized boat traffic
- 20 Unexpected waves
- 21 Changing water levels
- 22 Surface or submerged objects

YOU MAY EXPERIENCE

These conditions are all things you may encounter while on a Missouri state parks trail. Trailhead signs at the start of each trail also indicate which conditions exist on that trail.

ESTIMATED HIKING TIME

The estimated hiking time was determined by considering the average user's speed and the conditions that might be experienced on a specific trail. Your speed may be slower or faster than the time listed.

GPS COORDINATES

There are several methods of communicating GPS coordinates. Most GPS units will convert from one coordinate system to another. If you require a different coordinate system for your unit, visit dnr.mo.gov/gisutils/ to convert the coordinates shown on this map to another version.

NATURAL AREAS / WILD AREAS

Natural areas are identified in pink. Natural areas are recognized as the best remaining examples known of Missouri's original natural environments. These natural areas are managed and protected for their scientific, educational and historical values. Missouri state parks have 38 designated natural areas, encompassing almost 22,000 acres.

Wild areas are identified in brown. The Missouri Wild Area System is made up of large tracts of land set aside as wilderness, which make the perfect setting for hiking and backpacking. A wild area must be 1,000 or more acres in size, show little impact from humans, and possess outstanding opportunities for solitude. They are strictly protected for their wilderness benefits as well as for their use for environmental education and scientific study.

TRAIL USE

-  Hiking Trail
-  Backpacking Trail
-  Mountain Biking Trail
-  Equestrian Trail
-  Accessible
-  Hardened-Surface Bicycling Trail
-  Paddling Trail
-  Off-Road Vehicle (ORV) Trail
-  Motorized Boating Trail
-  Wagon Suitable Trail
-  Interpretive Trail
-  Fitness Trail
-  Interpretive Water Trail
-  Wildlife Viewing Trail
